

Pro-Stitcher®

This computerized quilting system works with HQ stitch-regulated carriage systems sixteen inches and larger. Using integrated technology, Pro-Stitcher offers the best of both worlds: computerized quilting and free-motion quilting in the same package.

Compatible with HQ Infinity, HQ Forte, HQ Fusion, HQ Amara, HQ Avanté, HQ Simply Sixteen, and HQ Sixteen stand-up longarms.

- 12-inch color touchscreen computer mounted on the stitch-regulated quilting machine
- Operate entire system from one screen
- Includes more than 1000 designs, including a designer showcase of motifs from your favorite designers
- Switch between computer-guided and free-motion quilting at the touch of a button
- Move designs into position by simply moving your finger across the screen
- Ability to read most .hqf, .txt and .qli digital quilt patterns
- Seamless integration with Pro-Stitcher Designer™ for designing and adjusting your own patterns at the longarm machine or on your computer (included software)
- On-screen Grid and Ruler to measure designs or area on quilt
- Horizontal and vertical channel lock
- Help menus always accessible
